Heads or Tails Procedures

At the beginning of the live Auction, the auctioneer will conduct the Heads or Tails game. At this time, all guests will be asked to stand in order to participate. Guests will be asked to predict the result of the auctioneer's coin toss, and to indicate such choice by physically placing their hand either their own "head" or "tail". All choices are final. Once the auctioneer tosses the coin and reveals the result, all those having chosen incorrectly are eliminated from the raffle and must sit down. Participants remaining will be asked to predict the outcome of the next coin toss and indicate their choice as previously described. Play continues as such until only one participant remains standing and is determined the winner. Four prizes will be awarded! Have fun!
